Education

Jaypee University of Information Technology, Wakhnaghat
Bachelor of Technology in Computer Science and Engineering
Batch 2024

Relevant Coursework

Data Structures and Algorithms, Database Management Systems, Web Development

Technical Skills

- Programming Languages: C, C++, Python
 - Web Development: HTML, CSS, JavaScript, Node.js
 - Operating Systems: Linux (Ubuntu), Mac OS, Windows
- Database Management: MySQL
 - Tools & Platforms: Git, VS Code

Experience

- WebUnix (Browser-Based OS) | HTML, CSS, JavaScript

December 2025

 - Built a browser-based OS with multi-application desktop interface
 - Used HTML, CSS, JS with LocalStorage for process, file system, and auth.
 - Enabled persistent app usage and smooth interactive experience.
- Hostel Complaint Management System | Node.js, Express, React, PostgreSQL

March 2025

 - Developed a full-stack platform for students to submit and track hostel complaints.
 - Used React, Node.js, Express, PostgreSQL with role-based dashboards.
 - Improved complaint tracking with organized workflow and real-time updates.
- Parking Management System | C++

November 2025

 - Built a parking system to manage vehicle entry, exit, and billing.
 - Implemented modular C++ with file handling and GST-based pricing.
 - Automated billing and improved record accuracy.

Soft Skills

- Teamwork:** Collaborated with peers in academic projects, contributing to group problem-solving and timely completion of tasks.
- Adaptability:** Quickly learned and applied new tools/technologies (e.g., Python, React) while handling changing project requirements.

Certifications

- AWS Cloud Practitioner** Udemy, 2026
Skills: Cloud Fundamentals, AWS Basics
 - Python Zero to Hero** Udemy, 2025
Skills: Python Programming, Problem Solving
 - Introduction to Cybersecurity** Cisco Network Academy, 2025
Skills: Network Security Basics, Threat Awareness

Key Achievements

- Developed a browser-based OS simulation with multi-application architecture.
- Built a full-stack complaint system with authentication and role-based control.
- Designed a complete C++ system with billing, persistence, and analytics.
